# NYSSIS

New York State Student Identifier System

A complete NYSSIS Users guide from the state can be found here.
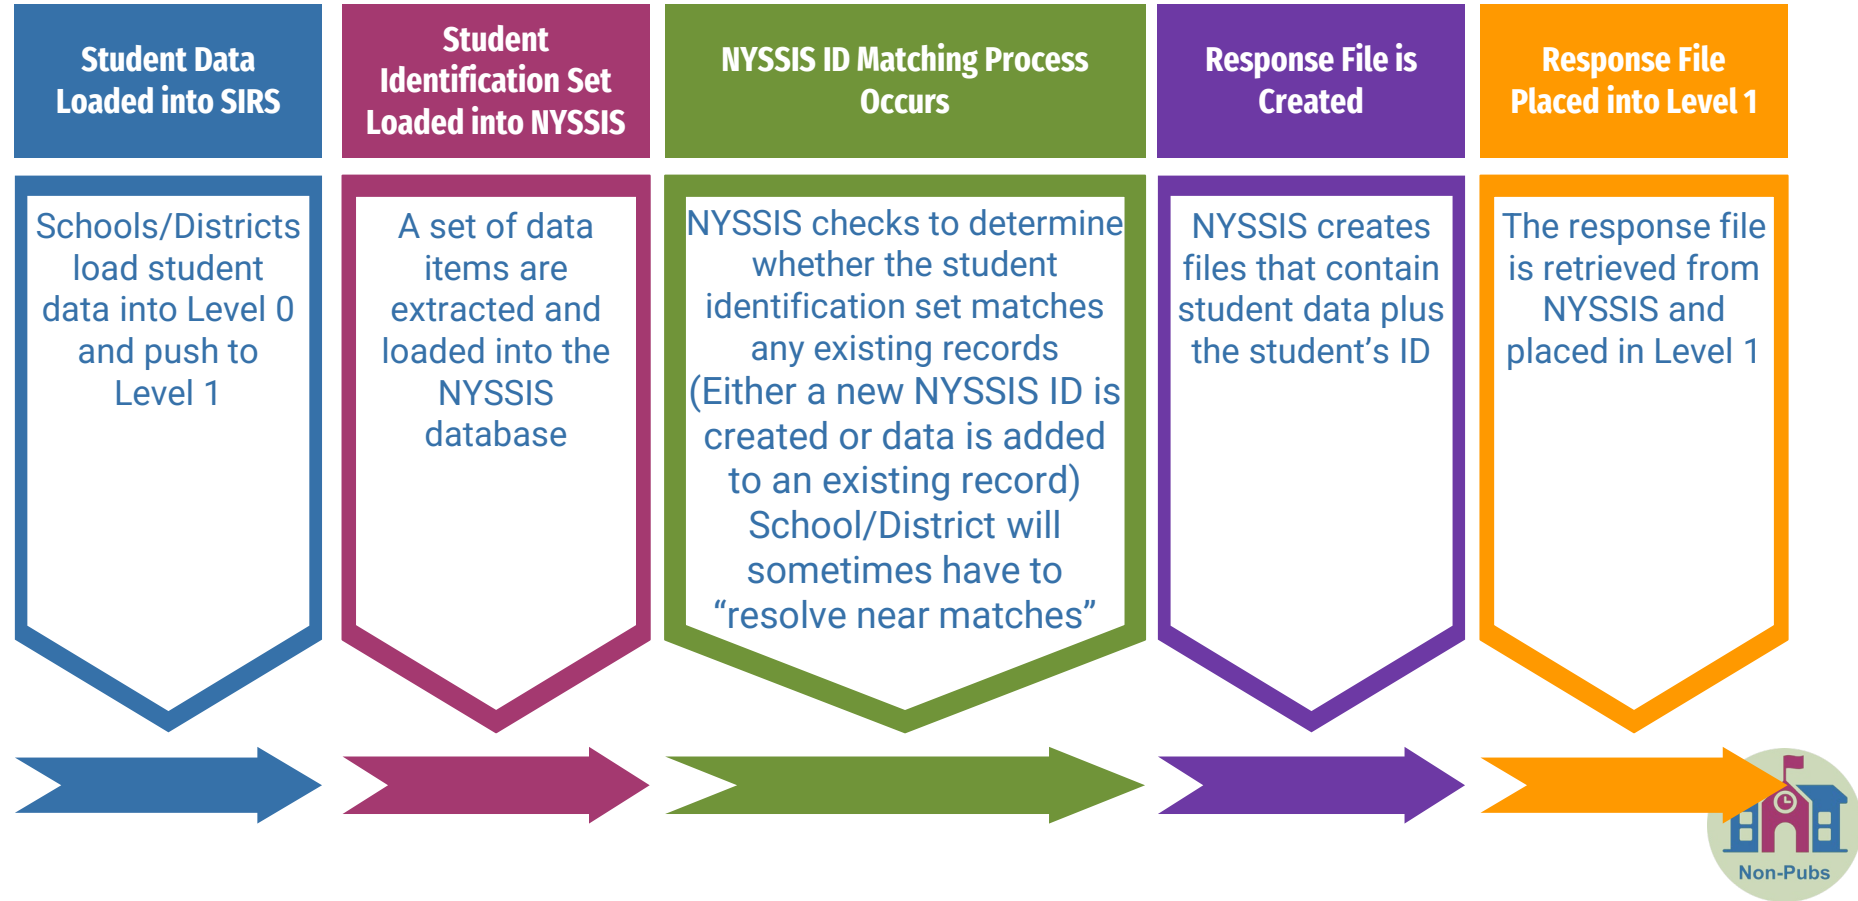

A means for SED to assign a stable, unique student identifier to every PK-12th grade student in NYS

These NYSSIS IDs:

➢ Enhance student data reporting

➢ Improve data quality

➢ Ensure students can be tracked longitudinally as they transfer between local educational agencies in NYS

Student Data Loaded into SIRS	Student Identification Set Loaded into NYSSIS	NYSSIS ID Matching Process Occurs	Response File is Created	Response File Placed into Level 1
Schools/Districts load student data into Level 0 and push to Level 1	A set of data items are extracted and loaded into the NYSSIS database	NYSSIS checks to determine whether the student identification set matches any existing records (Either a new NYSSIS ID is created or data is added to an existing record) School/District will sometimes have to "resolve near matches"	NYSSIS creates files that contain student data plus the student's ID	The response file is retrieved from NYSSIS and placed in Level 1

State Reporting

You must…

| ① Load student Demographics and Enrollment data into Level 0 | → | ② Push data to Level 1 | → | ③ Check NYSSIS Queue |

! It can take several days for a student to appear in NYSSIS.

Then NYSSIS will try to match the student to an existing NYSSIS ID

④ Either:
- ➤ NYSSIS will successfully match the student to an existing ID

  OR

- ➤ You will have to resolve a "near match" in the hold queue.

⑤ You will either:
- ➤ Match the student
- ➤ Create a new NYSSIS ID for the student
